1. Intention

The <100 Architects of the Year> international exhibition aims to mark a new milestone for Korean architecture through extensive global exchanges within the context of contemporary architectural trends. Building on the 30-year tradition of the "Korean Architectural Exhibition," this event was expanded in 2012 to become the world's first UIA-certified international invitational exhibition. Co-hosted by the Korean Institute of Architects (KIA) and the Union Internationale des Architectes (UIA), it offers a unique platform to explore cutting-edge architectural trends and the philosophies of architects from around the world, while sharing architectural culture with a global audience. We look forward to the participation of both domestic and international architects, showcasing a diverse range of projects.

Starting from 2023, the <100 Architects of the Year> exhibition has introduced a new video exhibition category, aiming to enhance the diversity and innovation in presenting architectural works.

2. Qualification

All foreign participating architects need to be members of an institution or organization that is a member section of the Union Internationale des Architectes (UIA).

3. Selection Criteria

Architects who participate in <100 Architects of the Year> have already been recognized for their qualifications. The selection process evaluates whether the architects meet the required standards for the exhibition. The Peer Reviewer will select the participating architects by reviewing their videos.

4. VIDEO (SUBMISSION GUIDELINES)

To ensure the highest quality and consistency of the videos showcased at the exhibition, please adhere to the following guidelines:

- 1. Video Quality :** Use HD quality with a minimum resolution of 1920 x 1080 pixels (16:9 aspect ratio) for clear visuals.
- 2. Duration :** Keep the video length between 1 to 3 minutes to effectively showcase your work.
- 3. Content :** Only contain one architectural piece or concept in each video for clarity. If your video contains subtitles, ensure that the subtitles are in English.
- 4. Filming Orientation :** Using mobile devices, videos should be shoot horizontally (landscape mode) not vertically (portrait mode).
- 5. Submission Method :** Use Dropbox or a similar file sharing tool for video submissions.
- 6. File Formats :** The recommended file formats are H.264, .mov or .mp4 for compatibility.
- 7. Copyrighted Music :** Obtain copyright verification for any music used in the video. If copyright issues arise, we may mute or replace the audio.
- 8. Reference Video :** ["100 Architects of the Year" Youtube](#)
